Complete Data Lifecycle
Protection with Veeam Data
Cloud for Microsoft 365 and
Veeam Data Cloud Vault

[Veeam.com](https://www.veeam.com)

Agenda

- The team approach to data survivability
- The need to consolidate data complexities
- Why Veeam Data Cloud and Data Cloud Vault?
- Veeam Data Cloud and Data Cloud Vault demo
- Wrap-up

The Team Approach to Data Survivability

- It takes a village – even with data
- Tech team or MSP, CFO, COO, and all staff are responsible
- Cyber-liability insurance, lawyer, CPA and marketing
- Outside expertise to help manage, test and scan all data

Consolidate Data Complexities

- Too many programs – too many screens
- Go deep, not wide with data security and protection
- Make knowledge transferrable
- Use proven technologies
- Get out of the “I need to be an expert in everything” business

Veeam Data Cloud

for Microsoft 365

The shift to Backup Services

of organizations are very likely
to utilize BaaS
within the next two years

Each backup is a separate, independent backup method embedded inside of Veeam's M365 backup solution.

The Veeam logo is centered on the page. It consists of the word "veeam" in a white, lowercase, sans-serif font. The text is contained within a white-outlined rectangular box with rounded corners and a slight drop shadow. Behind the box, there are two large, semi-transparent, light green shapes that resemble stylized arrows or chevrons pointing towards each other.
